College

Recommendation of Tomás Ondrejka

I hereby give my testimonial, that Tomás Ondrejka is attending the Bachelor Programme of Software Engineering at VIA University College.

At VIA, the students work on project assignments, demonstrating their ability to use theoretical knowledge to solve practical problems. I have been teaching Tomás in .NET programming and supervised him for his third semester project, which entails creating a distributed system. He is a very dedicated and conscientious student, who achieves great results. He has a kind, relaxed nature and is very approachable and mature. I recommend Tomás to anyone looking for a student willing and capable of putting in the extra effort.

I am at your disposal for any further information you might need.

Jakob Knop Rasmussen

Associate Professor

Software Engineering, VIA University College
